ALUMINUM FORMWORK SYSTEM

A TECHNOLOGICAL BOOM IN THE REAL ESTATE

A brand new innovation in the construction sector, Aluminum Formwork System saves cost and time along with improving the overall construction quality. Successfully used in the countries like Japan, Malaysia, Singapore and Middle East, the technology helps improve quality and enhance speed; thus being quite suitable for mass construction markets like India. This environment-friendly technique doesn't deploy timber and needs less maintenance. At Skardi Greens GolfLinks, we have resorted to this revolutionary technology for high-quality construction and timely delivery.
